Five Little Ghosties (hold up one hand)

Floating through the air (Wave hand around like floating)

The first one says, "You better beware!" (motion pointer finger)

The second one says, "Let's walk down the street." (act like walking)

The third one says, "But we have no feet!" (wave pointer finger sideways back & forth and point to feet)

The fourth one says, "We can't be seen." (cover face with both hands)

The fifth one says, "It's Halloween!" (gesture in a circular motion with both hands)

"Hoo!" goes the owl (cup 1 hand around mouth) and crash goes the lightning (clap hands hard)

Five little ghosties look so frightening (ask kids to make most frightening face)

I usually perform this twice. The first time, the kids watch and follow the hand motions. The second time, they do the hand motions and say it with me. They always love the lightning/clapping and making a frightening face parts.
